Carle Health Mobile Health Clinic

OUR COMMUNITY. OUR COMMITMENT.

 Carle Health

The Carle Health Mobile Health Clinic brings nonurgent services, at lower costs, to the entire family.

Now coming to neighborhoods around McLean County, our 40-foot, wheelchair-friendly mobile medical clinic offers infants, children and adults care to make sure families stay healthy.

WORLD-CLASS CARE ON WHEELS

- Physicals, including school/sport, presurgery/pre-op and preemployment.
- Care, screening and education for chronic conditions (like diabetes).
- Treatment of existing, severe illnesses.
- Wellness care and checkups.
- Vaccines and immunizations.
- Lab and point-of-care testing.
- Social Services on board to help with other resources that impact your health.
- Referrals for primary care, specialty care and other local specialty services.

Carle Health believes cost shouldn't stop anyone from getting healthcare. Our social work team is ready and willing to assist patients in applying for insurance and financial assistance from community resources.

Walk-ins are welcome.

Visitors to the clinic don't need to make an appointment. People will be seen on a first-come, first-served basis; the care providers will also check and treat the most critical patients first.

A Variety of Care Providers on the Team

A specially trained team of providers, nurses, CMAs and social workers staff the Mobile Health Clinic. Providers have experience in pediatrics, family medicine, and women's health and pregnancy.

The Mobile Health Clinic supports the goals of Carle Health Community Health Initiatives by making healthcare more accessible for everyone. For more information: carle.org/MobileHealthClinic or (309) 604-9688.
